🔗 Portfolio

🏠 LeetCode

As a B.Tech graduate in CSE (AI & ML), I have hands-on experience in building scalable AI-powered web applications and data-driven systems. Skilled in Python, machine learning, and full-stack development, I have practical exposure to deploying real-world solutions. I am particularly interested in working on large-scale digital infrastructure, secure data systems, and AI applications that create societal impact.

🎓 Education

Bachelor of Technology in CSE-Artificial Intelligence and Machine Learning

Vasireddy Venkataadri Institute of Technology, CGPA-7.6
2022 – 2026 | Guntur

Relevant courses: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Distributed Systems.

🧠 Skills

Programming Languages

Python, SQL, JavaScript, Java (Basic)

AI & ML

Supervised & Unsupervised Learning, NLP, Scikit-learn, TensorFlow

Database Management:

PostgreSQL, MySQL

Cloud & Tools:

AWS (EC2, S3), GCP (GCS), Git/GitHub, Bash, Vercel

Backend & API Development:

Flask, FastAPI, Django REST Framework

📄 Certificates

- AI & ML Virtual Internship Certification
- NPTEL-Programming in Java
- Google Associate Cloud Engineer
- NPTEL Cloud Computing
- Full-Stack Web Development Bootcamp (Udemy)

🏆 Achievements

Best CR Award in 4-1 semester

College hackthon:

As an Runnerup in the college hackathon

📁 Projects

AI-Powered Student Attendance Alert System

- Developed an AI-based system to analyze attendance patterns and generate automated alerts.
- Implemented using Python, Django, React, and PostgreSQL.
- Improved student monitoring through data-driven insights and automation.

Library Data Query System

- Developed an intelligent library management system with AI-powered search and recommendation features.
- Designed and implemented a full-stack application using Python, React, Flask REST Framework, and PostgreSQL.

QuickDeliver

- Designed and implemented a Streamlit application using Flask, Python, PythonScript, Google Gemini LLM
- Developed a modern AI-powered customer service application for food delivery systems, integrating a chatbot to handle user queries efficiently.

🧩 Strengths

- Eagerness to learn and adapt to new technologies.
- Strong collaborative and team-oriented mindset.
- Good problem-solving and analytical thinking skills.

🎮 Interests

- Playing Games
- Reading Mythological Books
- Cooking

📅 Experience

Hackathon Participant - Employee Management System Sri City Education Foundation

- Developed a web-based system to manage employee records and attendance.
- Added features like adding, updating, and deleting employee details.
- Designed a simple and user-friendly interface.
